

2008

SonoScape

**European Ultrasound
Entrepreneurial Company Award**

SonoScape Company Ltd.

The “2008 European Ultrasound Entrepreneurial Company Award” is presented to SonoScape Company. Ltd. Ever since its launch in the European markets, SonoScape has pioneered the development of the SSI-1000, a sophisticated hand carried ultrasound system, as well as other conventional cart based units for varied clinical applications. All at significantly low prices. This has ensured a double digit growth rate for the company in the European markets since 2004. With a strong focus on developing cost effective and ergonomically designed ultrasound technologies for the hospitals and private practitioners, the company has been able to attract significant brand loyalty amongst its clientele. SonoScape’s efforts in propagating the use of ultrasound to both small and large healthcare set-ups by offering highly sophisticated technologies at affordable prices shall continue to increase its customer base in newer markets. With its pioneering product- the S8 color Doppler system, the company will continue to expand its position as a leading global innovator of diagnostic ultrasound. Its initiatives in developing highly sophisticated yet cost effective portable and cart based ultrasound systems merits SonoScape for this prestigious Award.

Krishanu Bhattejee, Research Analyst, Frost & Sullivan

SonoScape is a Chinese leader specialising in developing and manufacturing cutting-edge color Doppler ultrasound systems and ultrasound transducers. Our corporate mission is to deliver revolutionary high-value products and services that improve healthcare worldwide.
